"Thirty years reading rooms in Miami. This time the record reads me."

DJ Affect is a Miami open format DJ and producer with a 30 year run behind the decks and a resident slot at **E11EVEN**. He co-wrote and co-produced "Pause" on Pitbull's platinum album **Planet Pit**, and has played the rooms that define the city's nightlife.

"We Found Love Thru The Pain" is his new melodic house single, built around real loss. The party people see from the outside, and the weight nobody talks about on the inside, in one record.

THE MAMA AFFECT FOUNDATION

A mental wellness and community nonprofit DJ Affect founded in honor of his late mother, Randi "Mama Affect" Kalimi, a beloved figure in Miami's nightlife. The July 13 release ties directly to its mission.
